

Dear parents, dear children!

We are happy to be able to resume teaching / therapy after the officially ordered closure.

Due to the still high risk of infection, we have to introduce some special regulations until further notice:

1. Please bring a suitable face mask for your child if possible.
2. Please strictly adhere to the times we have specified for the start and end of therapy.
3. Please bring and pick up the children on time, because we cannot guarantee care after the end of the therapy session.
4. Please do not bring any further family members, e.g. Siblings or grandparents in our practice.
5. Unfortunately, you cannot stay with us in the waiting room during therapy.
6. In order to minimize encounters between visitors in our practice, we have set up a second entrance.
7. Please pay attention in the hallway to which therapist you would like to attend and choose the appropriate entrance.

Please take these precautionary measures in the interest of our health!

Cordially yours and your Gisela Rautenberg & Team
